

Synchrony Automator

Axway is the leading global provider of collaborative business solutions.

Defying boundaries, Axway accelerates and optimizes cross-business processes within and among enterprises. We establish the connections that make companies easier to do business with—improving value chain efficiency, regulatory compliance and quality of service.

That's business in motion. That's Axway.

Automate Batch Processing and Reduce Implementation Costs

Today's global market demands that businesses react quickly to potentially disruptive changes in the economic environment. Business process integration means dealing with real-time, near real-time batch processes and jobs across increasingly complex infrastructures.

Synchrony™ Automator scheduling software is a complete, automated scheduling product that manages IT production, and synchronizes tasks launched by events from business workflows. Synchrony™ Automator helps reduce implementation costs and minimize organizational changes in enterprise IT services.

Automator intelligently integrates events, dependencies and schedules into business workloads dynamically across the enterprise. With Synchrony Automator, you can automate system jobs, react to monitored data exchanges in real time and apply processing based on time or events.

Automator provides all functions required for optimum process management:

- Process planning
- Organization
- Activation and monitoring
- Automatic workstation monitoring
- Handling system and applications messages

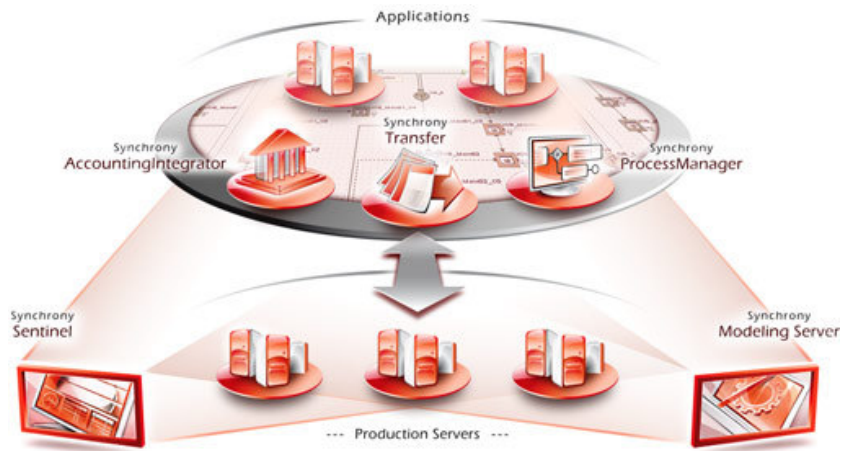

BENEFITS

Synchrony Automator helps businesses to achieve these competitive advantages:

Reduce costs and minimize organizational changes in enterprise IT services through Automator's intuitive, graphical interface and cross-platform, cross-application controls that easily manage heterogeneous IT environments.

Optimize enterprise IT resources (both human and machine) by scheduling any computing event in the enterprise.

Save time and boost ROI in your existing infrastructure by optimizing the performance of Axway software, and automating their event-driven tasks, servers and enterprise resource planning (ERP) applications.

Synchrony Automator is based on a collaborative, service-oriented architecture. As part of a global business/IT alignment strategy, Automator connects natively to Synchrony Transfer, providing a complete Synchrony MFT Solution.

Gain a Global Vision of Your Enterprise by using Automator to receive information from, and schedule jobs for, global IT in multi-operating system environments for application processes, and the jobs they run.

Reduce Operational Costs through increased efficiency and event-based automation.

In addition, the **Synchrony Automation solution** combines the power of Synchrony Automator with Synchrony Sentinel to accelerate activation of workflows, synchronize different applications and improve visibility between IT production and your business processes.

DEEP SERVICES EXPERTISE AND A COMMITMENT TO EXCELLENCE

Over 20 years of successful enterprise-class software solution delivery has resulted in deep domain expertise, including industry best practices, repeatable project management processes and highly scalable architectures. Getting the job done right, on time, and within budget are the hallmarks of Axway service delivery.

About Axway

Axway is the leading global provider of collaborative business solutions. Axway establishes the dynamic connections — within and among enterprises — that make companies easier to do business with. Spanning all industries, over 8000 organizations in more than 100 countries depend on Axway to manage and control their business-critical information in motion — improving value chain efficiency, regulatory compliance and quality of service. Built on a service-oriented architecture (SOA), Axway's Synchrony™ solutions feature a highly flexible integration and B2B framework, business and technical analytics, and professional services. Axway also offers customized solutions for the financial services, life sciences and automotive industries. A growing list of Axway's solutions are available in a software-as-a-service (SaaS) model. A subsidiary of Sopra Group, SA, Axway is headquartered in Scottsdale, Arizona.
