

Expand your Business, Empower your Users, and Secure your Data

Applications

- Access to corporate partner web portals and extranets
- Remote access to corporate networks via SSL VPN
- Digital signing of online financial transactions and documents
- Access to online banking services
- Secure document exchange and online access to electronic health records
- Online submission of sensitive documents such as student loan requests, medical records, and tax filings
- Access to eLearning courses and student records

The success of your organization depends on your ability to give authorized customers, partners and employees access to web-based applications, corporate networks, online services and business portals. You also need to ensure that this access is fully secure, completely mobile, and conveniently user-friendly.

eToken PRO Anywhere is a zero footprint certificate-based authentication solution that provides users with secure access to those critical business applications from any computer and from any location without worry. With eToken PRO Anywhere, you can expand your business, empower your users, and secure your data without the hassle and expense of installing client software.

eToken PRO Anywhere: Benefits

As the industry's first readerless smartcard token to combine strong, certificate-based authentication, complete mobility, and plug and play simplicity in a single device, eToken PRO Anywhere delivers a powerful range of business, accessibility and security benefits, including:

- **The strength** of certificate-based strong authentication
- **The confidence** of knowing there's "zero footprint" left on end-users' computer once browser is closed
- **The simplicity** and ease of use of traditional OTP authentication
- **The convenience** of plug and play technology that requires only a USB port and Internet connection
- **The enablement** of digital signing capabilities
- **The cost effectiveness** of never needing to install software on client computers
- **The scalability** of application-rich technology that's ideal for expanding online services
- **The efficiency** of battery-free tokens that that never expire and require no maintenance or user training
- **The control** of full life-cycle deployment and management with eToken TMS (Token Management System)

eToken PRO Anywhere in Five Easy Steps

eToken PRO Anywhere's simple, secure and portable authentication solution is astonishingly easy to use – there's no client software to install, token batteries to replace, or "technical know-how" required.

It simply takes five easy steps that any user can complete in a matter of seconds.

1. User inserts eToken PRO Anywhere

2. eToken Anywhere launcher loads

3. A web browser is opened

4. User inputs Token password

5. User accesses secure website with ease

Technical Specifications

Supported operating systems	Anywhere Mode: Windows 2000/2008/XP/Vista/2003 PRO Mode: Windows 2000/2008/XP/Vista/2003; Mac OS X; Linux • eToken PKI Client 5.1 required for eToken PRO Mode • eToken TMS required
Supported browsers	Internet Explorer 6.0+; Firefox 3.0+
API & standards support	PKCS#11 v2.01, Microsoft CAPI, PC/SC, X.509 v3 certificate storage, SSL v3, IPSec/IKE
Memory size	72K
On-board security algorithms	RSA 1024-bit / 2048-bit, DES, 3DES (Triple DES), SHA1
Security certifications	Common Criteria EAL4+ (Smartcard chip) In process for FIPS 140-2 levels 2 and 3
Dimensions	52 x 16 x 8 mm (2.05 x 0.63 x 0.31 inches)
ISO specification support	Support for ISO 7816-1 to 4 specifications
Operating temperature	0° C to 70° C (32° F to 158° F)
Storage temperature	-40° C to 85° C (-40° F to 185° F)
Humidity rating	0-100% without condensation
Water resistance certification	IP X7 – IEC 529
USB connector	USB type A; supports USB 1.1 and 2.0 (full speed and high speed)
Casing	Hard molded plastic, tamper evident
Memory data retention	At least 10 years
Memory cell rewrites	At least 500,000

Features

- Common Criteria certified
- Integrated secure logical and physical access option
- On-board RSA 1024-bit and 2048-bit key generation, authentication & digital signing
- Full PKCS#11 functionality
- No battery required ensuring device durability and extended lifetime
- In process for FIPS 140-2 levels 2 & 3
- Hardened tamper-evident and water-resistant shell
- Full compatibility with standard USB interface
- Patent pending technology

The SafeNet Family of Authentication Solutions

SafeNet's suite of authentication solutions includes certificate-based, OTP, hybrid and software authenticators. All authenticators, together with SafeNet's extensive management platforms and security applications, empower you to:

- **Conduct business securely and efficiently** and open new market opportunities with innovative products that enable secure remote access and advanced security applications such as certificate-based authentication, digital signing and pre-boot authentication.
- **Reduce risk** with strong authentication solutions that prevent fraud and data theft and enable compliance to industry regulations.
